

What do we call it?	What is it?	What does it look like?
Ehubo2 / ELD	A secure GPS electronic distance recorder unit which can be installed in vehicles and which connects to our servers.	
EROAD Clarity Dashcam	Clarity Dashcam provides the option of both driver facing and outward facing video footage. Audio recording is also an available feature. Dashcam footage can be used for driver coaching and to demonstrate fault in the event of an incident or near miss.	
EROAD Clarity Edge	Clarity Edge is an in-vehicle video solution powered by Artificial Intelligence (AI). The camera can capture both inward and outward-facing video footage and uses AI to identify unsafe driving behaviours. The outward-facing AI camera focuses on advanced driver assistance systems, including tailgating alerts, forward collision or near-miss warnings, and proximity alerts. The inward-facing, driver-focused camera monitors behaviours such as distraction, yawning, mobile phone usage, smoking, unfastened seatbelts, and covered camera lenses. Clarity Edge requires an EHUBO or CoreHub device.	

	<p>Clarity Edge can be supported by an optional, inward facing auxiliary fatigue camera. This fatigue camera also utilises AI to detect frequent blinking, continuous eye closure, distraction, and yawning.</p>	
<p>Ehubo1</p>	<p>An electronic distance recorder for vehicles over 3.5tonnes. It measures distance travelled and captures location, route and operational data from the vehicle</p>	
<p>Tubo</p>	<p>A distance recorder device for heavy trailers</p>	
<p>EROAD e-Track Wired Asset Tracker</p>	<p>Designed to track powered assets and equipment</p>	

<p>EROAD Driver ID</p>	<p>EROAD's Driver identification unit available for our first-generation in-vehicle devices to help Customers identify who is driving their vehicles</p>	
<p>Elocate</p>	<p>Elocate is a tracking solution for vehicles and machinery not requiring road user charges functionality</p>	
<p>EROAD Where</p>	<p>EROAD Where is an asset tracking solution for smaller, low-cost assets, such as trailers, waste bins, freight cages, construction and trade equipment.</p>	
<p>ETrack G70</p>	<p>A robust GPS tracker that connects to vehicles, trailers or heavy equipment for accurate real-time tracking as well as odometer readings and run hour monitoring.</p>	
<p>ETrack Oyster 3</p>	<p>A rugged GPS tracking device, designed for monitoring non-powered assets where long battery life is required, without sacrificing the frequency of updates and performance.</p>	

<p>EROAD Mobile Applications</p>	<p>EROAD's applications for a mobile device, including for vehicle inspection and hours of service.</p>																																																	
<p>Depot</p>	<p>An online platform available via secure websites including at depot.eroad.com, depot.eroad.co.nz and depot.eroad.com.au by which data received from our devices is processed by our servers and made available to Customers, End Users and Drivers to be viewed, saved and exported or downloaded.</p>																																																	
<p>Electronic Logbook</p>	<p>Provides real-time access to drivers' logbook information on a mobile app and web-based platform.</p>																																																	
<p>Payment Gateway</p>	<p>Payment Gateway is a service we provide to our Customers by filing and paying their road taxes and regulatory charges (including road user charges, weight-mile tax and IFTA obligations).</p>	 <table border="1"> <thead> <tr> <th>Reference</th> <th>Date</th> <th>Total</th> <th>Payment Type</th> <th>Auto/RUC Purchase</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>197775</td> <td>11/06/16 09:09</td> <td>\$66.40</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1969345</td> <td>07/06/16 10:52</td> <td>\$130.29</td> <td>VISA</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1967784</td> <td>05/06/16 13:04</td> <td>\$129.55</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1953316</td> <td>27/05/16 11:36</td> <td>\$66.40</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1950731</td> <td>26/05/16 10:01</td> <td>\$190.40</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1946088</td> <td>24/05/16 10:51</td> <td>\$314.40</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> <tr> <td>1944589</td> <td>23/05/16 15:21</td> <td>\$314.40</td> <td>Direct Debit</td> <td>Yes</td> <td>Complete</td> </tr> </tbody> </table>	Reference	Date	Total	Payment Type	Auto/RUC Purchase	Status	197775	11/06/16 09:09	\$66.40	Direct Debit	Yes	Complete	1969345	07/06/16 10:52	\$130.29	VISA	Yes	Complete	1967784	05/06/16 13:04	\$129.55	Direct Debit	Yes	Complete	1953316	27/05/16 11:36	\$66.40	Direct Debit	Yes	Complete	1950731	26/05/16 10:01	\$190.40	Direct Debit	Yes	Complete	1946088	24/05/16 10:51	\$314.40	Direct Debit	Yes	Complete	1944589	23/05/16 15:21	\$314.40	Direct Debit	Yes	Complete

<p>Corehub</p>	<p>COREHUB is an IOT platform for digital supply chain assurance. Plug and play for easy and affordable installation, CoreHub connects directly with the vehicle diagnostics port and works wirelessly with sensors over Bluetooth Low Energy.</p>	 <p>CORETEX</p> <p>COREHUB</p>
<p>Corevision Dashcam</p>	<p>CoreVision Dashcam captures footage when triggered by an event e.g. harsh braking, swerving, speeding. It comes with options of front facing camera lens or a dual option that also has a lens to face the driver. It sends data to CoreHub and onto the cloud.</p>	 <p>CORETEX</p> <p>COREVISION DASHCAM</p>
<p>Corevision AI</p>	<p>CoreVision AI recognises fatigue and hazards in real time to avoid accidents. It provides driver facing video and recognises facial patterns and alerts drivers who are fatiued or distracted. It can be fitted to any camera unit and works in daylight and at night.</p>	 <p>CORETEX</p> <p>COREVISION AI</p>
<p>Corehub Xtreme</p>	<p>Corehub Xtreme New generation rugged IOT platform for refrigeration and dry van and non-powered asset monitoring. Compatible with Carrier and ThermoKing refrigerated microprocessors</p>	
<p>Sensors</p>	<p>There are a variety of sensors that sit across the construction, refrigerated transport, and waste and recycling verticals, including:</p>	 <p>CORETEX</p> <p>SENSORS</p>

	<p>Drum rotation (Cement mixer)</p> <ul style="list-style-type: none"> • Lift Arm (Waste) • Inclination sensor • IOT tag <ul style="list-style-type: none"> • Washout sensor • Water Meter • PSI • Hydraulic Temperature <p>Fuel Sensor Ultrasonic and Optical Door Sensor (tethered and wireless) Temperature sensor Humidity sensor Core PLC to measure ABS brakes and tire inflation activation Solar panels</p>	
<p>Coretemp</p>	<p>The future of cold chain assurance.</p> <p>CoreTemp is revolutionizing product temperature and delivery compliance throughout the refrigerated goods supply chain. CoreTemp uses intelligent mathematical algorithms to predict the core temperature of your products with incredible accuracy - all in real-time.</p>	

<p>Zello</p>	<p>Provides a digital two way digital radio interface integrated into the Ready Mix Dispatch system and the CoreDrive application</p> <ul style="list-style-type: none">• Dynamic channels between drivers and Jobs	
<p>CoreRFID</p>	<p>Captures wireless RFID tag info during lift arm events on Waste and Recycling collection trucks</p>	
<p>Waste</p>	<p>Wireless Lift Arm sensor</p>
